

# PowerChart Progress Notes

## Tip Sheet: Refreshing Sections in Progress Note

May 19, 2014

**Tip:** Sections within the note can be refreshed separately from the main Refresh button.

Main Refresh: DO NOT use to refresh the individual sections of the note.

The screenshot displays the PowerChart Progress Note interface. The top navigation bar includes a 'Documentation' tab and a 'Full screen' button. A red circle highlights the 'Refresh' icon (a circular arrow) in the top right corner, labeled '0 minutes ago'. The main content area is titled 'Progress Note' and contains several sections: 'Subjective', 'Objective/Physical Exam', 'Lab Result', and 'Diagnostic Results'. The 'Assessment/Plan' section is highlighted with a red box, and a 'Refresh this section' button is visible next to it. The bottom toolbar contains buttons for 'Sign/Submit', 'Save', 'Save & Close', and 'Cancel'. A red circle highlights the 'Refresh' icon (a circular arrow) in the bottom toolbar.

To refresh the individual section, hover over the section title and click the **Refresh** icon that displays.
